Our kids make a difference. They must have attracted nearly 100 spectators this month at Stow A Way Marina in Willis, Texas. This is a great place to hold an event or just launch for the day. I highly recommend you stop buy and visit with Lamar or Vince and let them know you had a great time. A BIG “hats off” to the folks at the Sunset Grill who donated a pair of burger baskets to the prize table. I know the winners of that prize didn’t walk away hungry

All the contestants were greeted to the first sign of summer. The clear skies let the sun shine for the entire tourney. The water temps were in the low to mid 80’s the water clarity was stained to murky due to an abundance of rain from the week prior. Several anglers reported catches on soft plastics in areas that were shallow close to deep water. An abundance of catfish and one big “gew” were weighed in from the juniors division as Julie Miller took top spot weighing 22.91lbs.

We are past the halfway mark and have qualified 7 anglers to advance to the State Championship. We also broke a tournament weight total for 07’ with 122.65lbs without a single bass casualty. Congratulations to all the anglers on a terrific example of sportsmanship and conservation. This month the Seven Coves Bass Club played host to the event. Working two shifts starting as early as 5:00am these guys and gals deserve a great big round of applause.

All participants received a goody bag for entering.
1st place and 2nd place winners were awarded a BASS plaque from Crown Trophy of the Woodlands. Big Bass and the Big Bag awards were a rod, reel and tackle box combos.
